Merging with divine

Author Indu Chinta's book 'Theyyam: Merging with the divine' will be launched on September 7 at Phoenix Arena at 5pm.

Theyyam is a fascinating form of ritualistic art, practised in north Kerala. It is a colourful, expressive and transcendent experience both for the artist and the audience. This book is a collection of very attractive photographs of several Theyyams

and their interesting folktales and legends. Few Indians and westerners have explored this art so far. Indu Chinta captured some of its beauty following artists and watching many Theyyams for months.
